more than any other sport baseball has developed its own niche in america s culture and psyche some researchers spend years on detailed statistical analyses of minute parts of the game while others wax poetic about its players and plays many trace the beginnings of the civil rights movement in part to the major leagues decision to integrate and the words and phrases of the game for example pinch hitter and out in left field have become common in our everyday language from aaron henry onward this book covers all of what might be called the cultural aspects of baseball as opposed to the number rich statistical information so widely available elsewhere biographical sketches of all hall of fame players owners executives and umpires as well as many of the sportswriters and broadcasters who have won the spink and frick awards join entries for teams owners commissioners and league presidents advertising agents drafts illegal substances minor leagues oldest players perfect games retired uniform numbers superstitions tripleheaders and youngest players are among the thousands of entries herein most entries open with a topical quote and conclude with a brief bibliography of sources for further research the whole work is exhaustively indexed and includes 119 photographs

consumer credit and the american economy examines the economics behavioral science sociology history institutions law and regulation of consumer credit in the united states after discussing the origins and various kinds of consumer credit available in today s marketplace this book reviews at some length the long run growth of consumer credit to explore the widely held belief that somehow consumer credit has risen too fast for too long it then turns to demand and supply with chapters discussing neoclassical theories of demand new behavioral economics and evidence on production costs and why consumer credit might seem expensive compared to some other kinds of credit like government finance this discussion includes review of the economics of risk management and funding sources as well discussion of the economic theory of why some people might be limited in their credit search the phenomenon of credit rationing this examination includes review of issues of risk management through mathematical methods of borrower screening known as credit scoring and financial market sources of funding for offerings of consumer credit the book then discusses technological change in credit granting it examines how modern automated information systems called credit reporting agencies or more popularly credit bureaus reduce the costs of information acquisition and permit greater credit availability at less cost this discussion is followed by examination of the logical offspring of technology the ubiquitous credit card that permits consumers access to both payments and credit services worldwide virtually instantly after a chapter on institutions that have arisen to supply credit to individuals for whom mainstream credit is often unavailable including payday loans and other small dollar sources of loans discussion turns to legal structure and the regulation of consumer credit there are separate chapters on the theories behind the two main thrusts of federal regulation to this point fairness for all and financial disclosure following these chapters there is another on state regulation that has long focused on marketplace access and pricing

before a final concluding chapter another chapter focuses on two noncredit marketplace products that are closely related to credit the first of them debt protection including credit insurance and other forms of credit protection is economically a complement the second product consumer leasing is a substitute for credit use in many situations especially involving acquisition of automobiles this chapter is followed by a full review of consumer bankruptcy what happens in the worst of cases when consumers find themselves unable to repay their loans because of the importance of consumer credit in consumers financial affairs the intended audience includes anyone interested in these issues not only specialists who spend much of their time focused on them for this reason the authors have carefully avoided academic jargon and the mathematics that is the modern language of economics it also examines the psychological sociological historical and especially legal traditions that go into fully understanding what has led to the demand for consumer credit and to what the markets and institutions that provide these products have become today
