this book provides a discussion of the managerial aspects solutions and case studies related to e business disseminating current achievements and practical solutions and applications provided by publisher

for years accounting ethics has been viewed as an unimportant adjunct of academic and professional accounting

however the economic scandals of the early twenty first century have dramatically nullified this characterisation with the ruination of investors in enron worldcom waste management aldelphia tyco and scores of other business concerns raising questions about the adequacy and relevance of academic research into accounting ethics as well as the ethical nature of professional parties presenting important papers that reassess these theories research studies and professional practices in the field of accounting ethics this collection scrutinizes the body of knowledge that did not protect the investing public and examines the current crisis in the creditability of financial reports

more user friendly interactive and powerful than ever before this step by step guide to professional research is integrated with a new online suite of research tools tutorials demos research cases and links to accounting and business research sites and standards setting organizations users can test their knowledge and research strategies with new active learning mid chapter practice exercises and a new section of end of chapter exercises in each chapter completely updated for the sarbanes oxley act and principles and rules based standard setting the fraud chapter 10 has been updated for the new sas 99 fraud auditing standards and explains the aicpa s new anti fraud program

now in its twenty first edition advances in accounting continues to provide an important forum for discourse among and between academic and practicing accountants on issues of significance to the future of the discipline emphasis continues to be placed on original commentary critical analysis and creative research research that promises to substantively advance our understanding of financial markets behavioral phenomenon and regulatory policy technology and aggressive global competition have propelled tremendous changes over the two decades since aia was founded a wide array of unsolved questions continues to plague a profession under fire in the aftermath of one

financial debacle after another and grabbling with the advent of international accounting standards this volume of advances in accounting not surprisingly includes articles reflective of recent focus on corporate governance earnings management and the influence of the ceo the accuracy of earnings forecasts and the value relevance or voluntary and mandated disclosures this volume also looks at challenges facing the academic community with respect to technology and addresses pedagogical advances holding promise aia continues its commitment to the global arena by publishing research with an international perspective in the international section inaugurated in volume 20 as never before the accounting profession is seeking ways to reinvent itself and recapture relevance and credibility aia likewise continues to champion forward thinking research

the first book of failure analysis case studies selected from volumes 1 2 and 3 of the journal engineering failure analysis was published by elsevier science in september 1998 the book has proved to be a sought after and widely used source of reference material to help people avoid or analyse engineering failures design and manufacture for greater safety and economy and assess operating maintenance and fitness for purpose procedures in the last three years engineering failure analysis has continued to build on its early success as an essential medium for the publication of failure analysis cases studies and papers on the structure properties and behaviour of engineering materials as applied to real problems in structures components and design failure analysis case studies ii comprises 40 case studies describing the analysis of real engineering failures which have been selected from volumes 4 5 and 6 of engineering failure analysis the case studies have been arranged in sections according to the specific type of failure mechanism involved the failure mechanisms covered are overload creep brittle fracture fatigue environmental attack environmentally assisted cracking and bearing failures the book constitutes a reference set of real failure investigations which should be useful to professionals and students in most branches of engineering
